OROCKTAKANG AGBORBEJA N.

Software Engineer | M.Sc. Software Engineering | Data Scientist | Buea, Cameroon |
+237 650 565 603 | orocktkagbor3@gmail.com | https://linkedin.com/in/orocktakang-agbor/

PROFESSIONAL PROFILE

Data Scientist and AI Researcher with a recently defended M.Sc. in Software Engineering and three years of combined experience in software development and machine-learning research. Proficient in Python, TensorFlow, PyTorch, Power BI and Google Cloud, with expertise in data preprocessing, exploratory data analysis, predictive modelling, deep learning and model evaluation. Conducted research on AI-driven heart disease detection using ECG data, developing and evaluating four deep-learning models to address challenges involving noisy and imbalanced datasets. Combines strong analytical and problem-solving skills with a software engineering background to develop practical, data-driven solutions. Interested in applying artificial intelligence, predictive analytics and process automation to strengthen banking operations, risk assessment and digital transformation.

TECHNICAL SKILLS & STRENGTHS

- **Machine Learning / AI:** Python • Machine Learning • Deep Learning • PyTorch • TensorFlow/Keras • Scikit-learn • XGBoost • SHAP • Model Evaluation • Power BI • Google Cloud
- **Data Analysis**: NumPy • Pandas • Data Preprocessing • Exploratory Data Analysis • Data Visualisation
- **Software Development**: Java • C/C++ • JavaScript • TypeScript • React • Node.js • FastAPI • REST APIs
- **Tools:** Git • GitHub • Google Colab • VS Code • Hugging Face • Gradio
- **Professional Strengths**: Analytical • Problem-Solving • Critical Thinking • Technical Documentation • Teamwork

---

EDUCATION

University of Buea | 2024 – 2026 (**Master of Science (M.Sc.) in Software Engineering**)
Dissertation: AI-Driven Diagnostics for Heart Disease Detection Using Deep Learning
CGPA: 3.46/4.00

University of Buea | 2020 – 2024 (**Bachelor of Engineering (B.Eng.) in Software Engineering**)
CGPA: 3.21 / 4.00

EXPERIENCE (RESEARCH)

Master's Researcher
University of Buea | 2025 – 2026
Dissertation: AI-Driven Diagnostics for Heart Disease Detection Using Deep Learning

- Conducted machine-learning research on ECG-based heart disease detection using the PTB-XL dataset**,** under the supervision of academic staff at the University of Buea.
- Developed and evaluated four deep-learning models using PyTorch**,** including CNN- and RNN-based architectures.
- Preprocessed ECG data and addressed class imbalance to improve model training.
- Evaluated and compared models using AUROC, F1-score, precision, and recall.
- Prepared technical reports documenting experiments and research findings.
- **Key Achievement**: Achieved a Macro AUROC of **0.9118** and Macro F1-score of **0.7004** with the CNN–BiLSTM model, the highest F1-score among the four models evaluated.
- **Research Demo:** *https://huggingface.co/spaces/orocktk-agbor/ecg-multimodel-dx*

EXPERIENCE (PROFESSIONAL)

Organiser
Hustler Engineering, Buea, Cameroon | 2025 – 2026

- Coordinated software engineering events and technical workshops.
- Mentored aspiring developers in technical preparation for software development competitions
- Received a Certificate of Appreciation for leadership and community contribution.

Software Developer Intern
Summit Tech, Buea, Cameroon | 2023 – 2024

- Developed full-stack web applications using the MERN technology stack.
- Designed and integrated RESTful APIs to support scalable software solutions.
- Collaborated within Agile development teams to deliver reliable software products.
- Contributed to an award-winning solution recognized at the Silicon Mountain Code Battle 2023.

International Broadcaster
AGCOM, Buea, Cameroon | 2022 – 2026

- Conduct interviews, analyse information, and deliver clear, engaging commentary to international audiences, strengthening my ability to communicate complex ideas effectively to diverse audiences.

ACHIEVEMENTS

- Successfully Defended Master of Science Dissertation (2026)
- Certificate of Appreciation – Hustler Engineering (2025)
- Second Place Winner – Silicon Mountain Code Battle (2023)
- GCE Advanced Level Excellence (23/25 Points) (2020)
- Certificate of Excellence for outstanding Performance MIA (2020)

LANGUAGES

- English (Fluent)
- French (Basic & Ongoing acquisition)
